About **PRO-X**

Pro-X is the newest end-to-end video security solution from LTS. Every essential piece is here, from recorders to cameras and beyond, so installers and integrators can create complete video security solutions using exclusively Pro-X hardware.

Pro-X features entry- to enterprise-level recorders, along with state-of-the-art fixed and varifocal turrets, domes, and bullets. PTZ, fisheye, and LPR cameras round out the product line at launch time, and there will be more to come. Unique Pro-X advantages come together in what we call the “X-Factors.”

- **X-Search 2.0** takes video search to the next level-track movement across cameras, pinpoint activity within defined zones, or find suspects by visual traits like clothing color or accessories – all in seconds.
- **X-Deterrence** combines special features that have been shown to stop criminality before it starts - motion detection, triggered audio & video responses, and more.
- **X-Tracking** features both E-Tracking with digital zoom on 180° panoramic and 12MP Camera, as well as Smart Auto Tracking using the motorized camera housing on all PTZ models.
- **X-POE** radically extends power over Ethernet cables to transmit 100 Mbps up to 980 feet and 10 Mbps up to 2,620 feet.
- **X-Boost** Pro-X NVRs the ability to level-up basic IP camera installations by adding AI-based Human / Vehicle Detection, line crossing and face recog-

Lifetime Warranty

Every Pro-X product comes with a lifetime warranty, providing long-term value and peace of mind. This commitment reflects our confidence in the durability and quality of Pro-X solutions, ensuring your investment remains protected for years to come.

NDAA Compliance

The Pro-X series is fully NDAA-compliant, ensuring it meets the highest security and regulatory standards required for government and commercial applications. Built with trusted components, Pro-X products guarantee secure, reliable performance without the risk of restricted parts or vulnerabilities.

What Makes Us Stand Out

Since 2009

First-class Service

- Well-stocked Inventory
- Same Day Delivery
- New Technology Demos
- Shop Online 24/7
- Local Order Pick up
- Membership Rewards
- Free Shipping Available
- Seamless RMA Process

200,000+ sq ft

Warehouse Space

90K Customers Served Annually

120+ Sales/ Techs

- Free Security Solution Consultation
- Sales & tech support from 9am to 9pm ET

100+ New Products Released Annually

We offer a wide range of high-quality products that make it easy to secure project deals.

Pro-X End to End Solution

AxxonSoft is a limitless scalable video management software designed to deliver seamless security integration, advanced AI analytics, and intuitive control for any surveillance environment.

Unlimited Scalability

Seamlessly unify unlimited distributed sites into a single VMS for centralized security management.

Performance and Resource Optimization

Save network bandwidth and client CPU resources with adaptive video streaming.

Flexible Video Storage Management

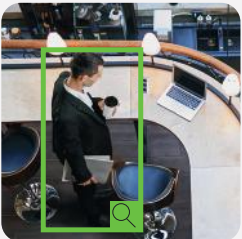

AxxonSoft supports storage in edge NVR, server, and NAS.

User-Friendly Interface

Customizable Layouts
Multi-level interactive 3D map
Easy alarm handling procedure

AI-Powered Analytics by Server

Lost Your Valuables? X-Search is Hot on Their Trail!

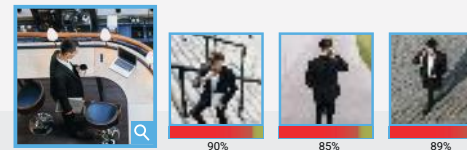

The X-factor in X-Search just got hotter with new features such as smart search for lost objects, target search now including animals, and a target tracking map of your suspect's pathway.

Smart Search

Lost your belongings? X-Search 2.0 is here to save the day. The smart search feature lets you find your object's last known location. This data will help you narrow down the suspects.

Target Search

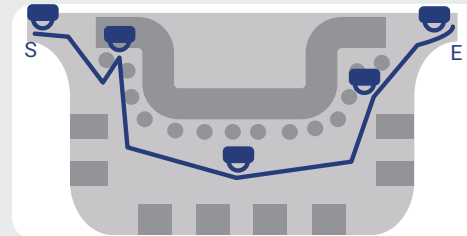

The technology has advanced to effectively identify various targets, including humans, vehicles, and animals. Staff can refer to similar subjects shown on cross-channels to track the perpetrator.

Event Results

The X-Search helps you locate all subjects near the missing object, which in turn helps you find the perpetrator. This technology eliminates the need to manually review all the footage to discover what happened.

Target Tracking Map

The advantage of X-Search 2.0 is the target tracking map, which allows you to follow the suspect's path to determine their last known location. You can use the map to collaborate with authorities to apprehend the suspect.

AI Color 24/7 Technology That Never Sleeps

The new AI Color 24/7 Pro-X cameras provide high-quality color images in low-light environments by enhancing color, reducing noise, reducing motion blur, and more.

Enhanced Color Images

The AI Color 24/7 cameras have a built-in AI-ISP chipset, which enhances color images by restoring the original colors, reducing noise, and reducing motion blur.

Around-the-clock, Crystal Clear Images

Image quality is a significant part of CCTV surveillance, especially at night. The AI Color 24/7 cameras sharpen details to enhance the fine details, resulting in improved facial and object recognition 24/7.

Versatile Color Correction

The AI Color 24/7 cameras brighten shadows to improve image quality in low-light or high-contrast scenes and eliminate unwanted color tints to ensure true-to-life color.

Better Motion Blur Reduction

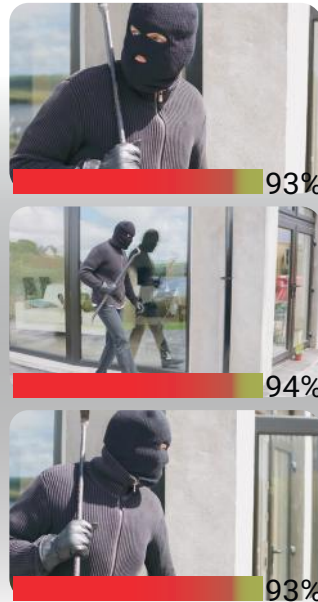

Video Surveillance is most important during the few moments when your subject of interest is on screen. The AI Color 24/7 Cameras have great motion blur reduction, so you can actually see the targets being recorded.

More Than Just Deterring - It Hunts

X-Search Hunt Threats in Real Time

*White light is only for supplemental lighting

Deterrence Technology Evolution:

IR Camera

- Standard
- No Active Deterrence

White Light Deterrence

- Uses flashing white light to scare off intruders.
- Issue: White light strobe *disrupts* image clarity

X-Deterrence

- Combines siren, red & blue strobe lights, and customizable video/audio warnings.

X-Deterrence 2.0

X-Search

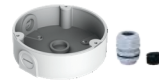

Hunt threats in real time

180° Panoramic Coverage

Hunt every corner, no blind spot

Intelligent Color Series with X-Deterrence

Smarter, Wider, Sharper *Deterrence*

Linkage Tracking & Auto Zoom In

The panoramic camera detects movement and seamlessly hands off tracking to the PTZ camera, which automatically follows the target in real time.

PTZ Precision Deterrence

Tracks intruders with precision deterrence, activating red & blue lights, a high-decibel siren, and custom audio alerts for targeted defense.

Wider Coverage

Extends protection with a 180° field of view, deter threats across larger areas.

Designed For Enterprise Security

Expanded Network Capacity

With up to 1408 Mbps input bandwidth, dual 2.5Gbps Ethernet ports, and support for up to 128 IP channels, this NVR delivers exceptional scalability and performance for even the largest surveillance networks.

Powerful AI Functions

Enjoy expanded support for X-Search 2.0, Facial Recognition, Metadata, VCA, and Motion Detection 2.0. Run X-Search 2.0 and Facial Recognition at the same time, enabling faster target and event detection.

Next-Level Visual Performance

Experience unmatched visual performance with 4 independent HDMI outputs supporting up to 8K (32MP) resolution. Decode multiple high-resolution streams simultaneously — from 1 channel at 32MP to 32 channels at 1080P.

Enterprise-Grade Reliability

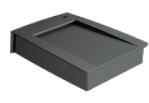

With RAID 0/1/5/6/10, N+1 cluster redundancy, and hot-standby support, this NVR ensures data integrity and continuous operation — even in the event of drive or system failure.

Take command of your **entire** security network from a single app:

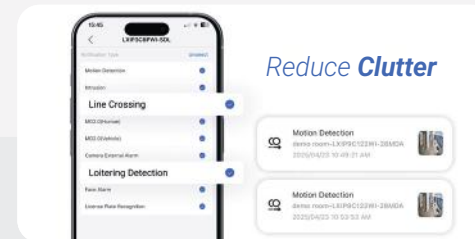

- NVRs
- IP cameras
- Access control
- Door station

Arm Your Property with One Tap

Control deterrence instantly from the Pro-X Next app. One tap arms or disarms your system, keeping protection fully aligned with your routine.

Tailored Notifications for Every Scenario

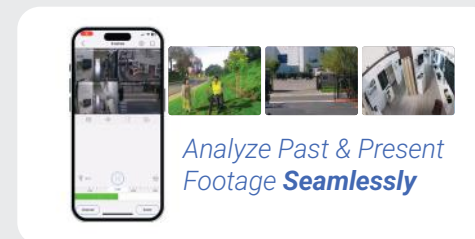

Our app allows you to specify notifications by event type, leaving you with updates that help you act fast and stay informed.

Precise Playback with Intelligent Event Filtering

Quickly pinpoint critical moments with intelligent event-based playback filters. Skip hours of irrelevant footage and focus on line crossing, motion detection, or intrusions to accelerate response times.

Live View + Playback, Side by Side

Monitor real-time events and review recorded footage side-by-side. Compare incidents, verify activity, and maintain constant visibility without switching screens.

WD Purple™
